

AI CONSULTING — BUILT FOR SMBs

Put AI to Work for Your Business. **Responsibly.**

Small and mid-size companies are sitting on untapped AI potential. Greyvoth helps you identify the right tools, implement them ethically, and train your team to get real results.

WHAT I OFFER

**LLM Consulting**

Navigate the landscape of large language models and find the right fit for your workflows, budget, and goals — without the hype or guesswork.

**AI Ethics**

Implement AI with intention. Understand bias, transparency, and accountability so your strategy builds lasting trust — not liability.

**Prompt Engineering**

Custom workshops and documentation built around your team's specific tools and use cases — practical, not theoretical.

WHY GREYVOTH

Designed for SMBs

Enterprise-grade AI thinking, scaled to budgets and teams that actually exist.

Ethics First

AI that works for people, not just metrics. Responsibility built in from day one.

Practical & Teachable

No black boxes. Every engagement leaves your team knowing the how and the why.

Creative + Technical

Design thinking meets AI depth — a rare combination that solves problems differently.

Ready to Move Forward with AI?

Let's talk about where AI fits in your business and how to implement it with confidence.
